

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing. The white plastic housing is open, revealing a blue printed circuit board (PCB) with various electronic components. A black ruler is placed vertically next to the assembly for scale. The ruler has markings in centimeters (0 to 100) and millimeters (0 to 10). The PCB is labeled with "3VDC 50mA CR123" and "RCX 2123".
Solder Board-Component View 1	 A close-up photograph of the solder board component. The blue PCB is shown with various electronic components, including a large black integrated circuit (IC) and a smaller component labeled "RCX 2123". A black ruler is placed vertically next to the component for scale. The ruler has markings in centimeters (0 to 100) and millimeters (0 to 10).

Solder Board-Component View 2	 A photograph showing a small blue printed circuit board (PCB) component with various electronic components and a QR code. The component is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. A white label on the component reads "3VDC 50 CR123".
Antenna View	 A photograph showing the same blue PCB component from a different angle, focusing on the antenna area. A red rectangular box highlights the antenna structure, and a red line points from the text "BT and IEEE802.15.4 Ant" to it. The component is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. A white label on the component reads "RCX 2123".
