A photograph of a custom-built electronic circuit board, likely a power supply or amplifier. The board is populated with various components: a large yellow electrolytic capacitor (labeled 0012-08000566-0R HD 1632), a transformer with a yellow core, a blue electrolytic capacitor, a yellow electrolytic capacitor, and several resistors. A blue heat-shrink tube is used for wire management. A ruler is placed below the board for scale, showing measurements in millimeters. The board is mounted on a light blue surface.
