RE: FCC ID: N3ESPYTRACKR70044

1 Please note that section 15.19(a)(5) can only be used when the device is “so small or for such use that it is not practicable to place the statement specified under paragraph (a) of this section on it”. The device appears large enough to contain the statement of 15.19. There also does not appear to be any ‘practical’ reason why the two condition statement cannot be on the device. Please provide justification for not placing the two condition statement on the device or please provide a corrected label containing this statement.

Response: The Part 15 statement will not be able to fit on the Transmitter bottom portion, since the size of the engraved letter, used for the FCC statement, is too big. I have included a picture from the Receiver, which is large enough in size for the FCC statement to fit, but the statement is too large in size to fit on the transmitter.

Transmitter bottom

Bottom of Receiver (Portion of picture 1 of 2)

Full Size of the bottom side of the Receiver.

2 The report file is corrupt and cannot be opened by Adobe Reader. Please provide a report that can be opened.

Response: Uploaded report that should open.

Hopefully this answers all of your questions. Please contact me via doc@elliottlabs.com if you require more information.
