LIMITED ONE YEAR WARRANTY

Wulfsberg Electronics, Inc., unit of Sundstrand Corporation (hereinafter called WEI), Overland Park, Kansas has designed, engineered and constructed the equipment with the finest material and components available. This equipment has been thoroughly inspected and tested before leaving the factory.

WEI warrants each item of new equipment manufactured by it to be free from defects in design, workmanship and material under normal use for which intended for one year after date of installation.

WEI shall hereunder replace or repair (at WEI's discretion) any WEI part or component, which shall within such warranty period, be returned, transportation charges prepaid, to an authorized warranty service center. Such service centers, if authorized in advance by WEI, may return the part or unit to WEI's factory for compliance with this warranty. This warranty of parts includes bench time required to locate the defect, repair same or replace such part.

This warranty shall not apply to any unit or part thereof, which has not been installed by a WEI approved installation facility in accordance with the installation instructions, or which has been repaired or altered in anyway so as to adversely affect its performance or which has been subjected to misuse, negligence or accident.

This warranty is expressly in lieu of all other warranties, expressed or implied, including any implied warranty of merchantability or fitness, and of all other obligations or liabilities on the part of the seller.

WEI reserves the right to make changes in design or additions to or improvements in its equipment without obligation to install such additions or improvements in equipment theretofore manufactured.
