

Honda Engineering Co.,

Request for Class II Permissive Change

December 7, 2017

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : N43E30000201
Applicant : Honda Engineering Co., Ltd.

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: N43E30000201, originally granted on 08/20/2014.

We changed the following points from the original model.

- Delete the frequency of 5745-5825MHz from DTS
- Add the frequency of 5745-5825MHz to NII
- New rule is also applied for the frequency of 5180-5320MHz

Please refer to attached "Test Report" for details of these modifications.

Meanwhile we submit the following documents related to this change. There is no change before and after change except for these documents.

☒	Test Report
☐	External Photo
☐	Internal Photo
☐	User Manual
☐	Label drawing/ location
☐	Block Diagram
☒	Specification(Software security description)
☐	Schematic Diagram
☐	Parts List

This time, we performed the testing and confirmed that this product still meets the minimum requirements of the applicable rules of FCC. Please refer to the test report submitted with this application.

This E.U.T. complies the new rule on "KDB926956 D01 U-NII Transition Plan v02" and KDB905462.

Thank you for your attention to this matter.

Sincerely,

Akiei Satani
