Dear Mr. Fabina,

Thank you for your kind advises regarding application fee.

Unfortunately, we, Onetech Corp., already sent a single check for \$2865.00 to the Mellon bank on Nov. 10 by courier service and then we received your kind information. The reason we make a single check was a person requested a single check for \$2865.00. Enclosed please find a check list form which was returned to our customer. The enclosed file format for this material is JPEG.

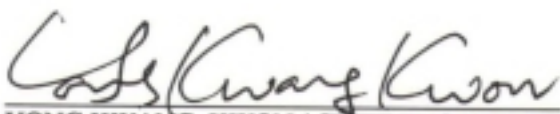

Do you think we will face another delay in obtaining equipment authorization, if we do not send 3 checks for total 3 products according to your advise.

We know you are very busy, but could you confirm us that, because we really do not want to face another delay in obtaining a grant letter.

Thank you for your early confirmation and prompt cooperation would be highly appreciated.

731 Confirmation No.: EA91725
