

Test setup for conducted AC powerline emission test

Test setup for conducted AC powerline emission test - continued -

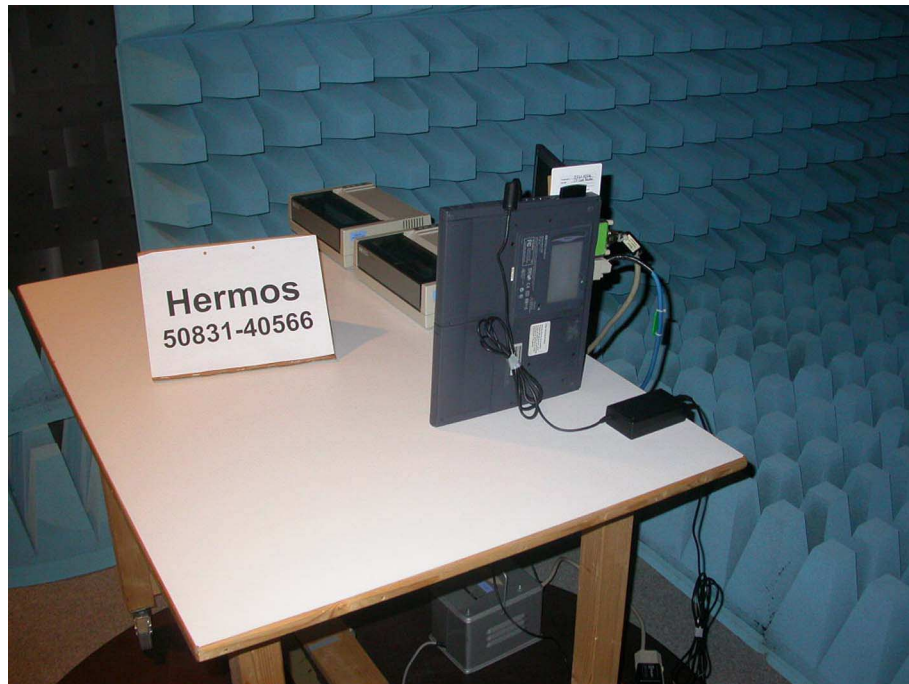

Test setup for conducted AC powerline emission test - continued -

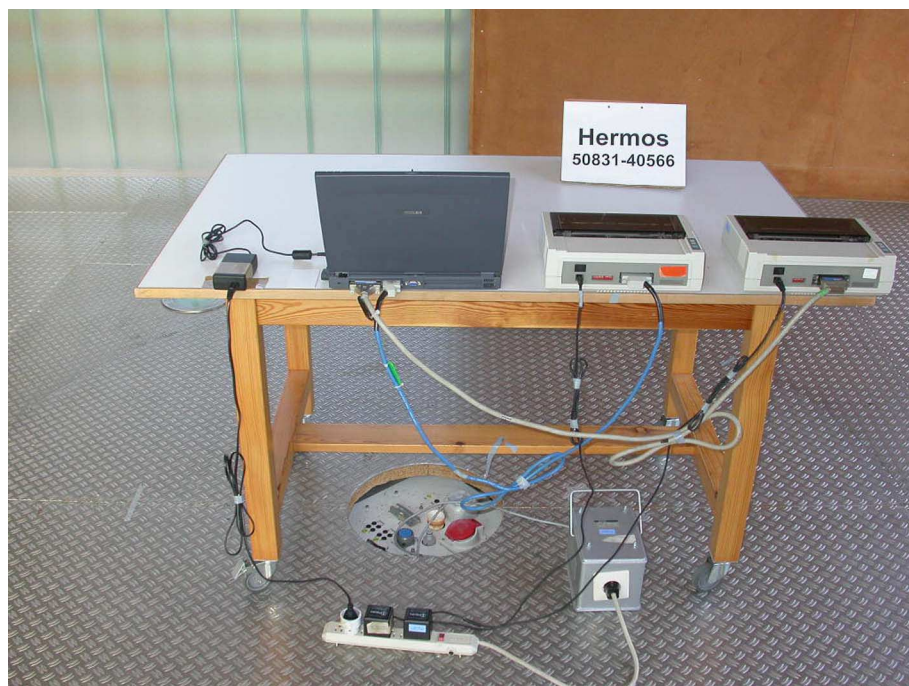

**Test setup for radiated emission test
(fully anechoic room)**

**Test setup for radiated emission test
(fully anechoic room)
- additional position for measuring maximum magnetic field strength-**

**Test setup for radiated emission test
(open field test site)**

**Test setup for radiated emission test
(open field test site) - continued -**

**Test setup for radiated emission test
(open field test site)
