RE: Attestation of Very Low Power Operation

FCC ID: N6C-SDMAX6E

ISED certification number: 4908A-SDMAX6E

Dear Examiner,

We, Silex Technology, Inc., attest that this device complies with the following requirements of the FCC's and ISED's rules for the 6GHz bands and will document the physical restrictions associated with the equipment classes for host products (wired power, integral antenna, non-weatherized enclosure) as conditions of use through the host manufacturer's integration instructions:

1. Device protocol attestation and contention-based protocols apply to functions permanently embedded in the module and cannot be host-dependent.
2. Device Protocol Attestation Statement:
 - a. This device will prioritize spectrum above 6.105 GHz.
 - b. This device will use Transmit Power Control (TPC).
3. Acknowledging device restrictions:
 - a. Operation is prohibited on oil platforms and aircraft, except that operation of this device in 5.925-6.425 GHz is permitted in large aircraft flying above 10,000 feet.
 - b. Control of or communications with unmanned aircraft systems is prohibited, including drones.
