This report is for the exclusive use of the applicant. Any copying or replication of this report to or for any other person or entity, or use of our name or trademark, is permitted only with our prior written permission. Note that the results contained in this report pertain only to the test samples identified herein, and the results relate only to the items tested and the results that were obtained in the period between the date of initial receipt of samples and the date of issue of the report. This report sets forth our findings solely with respect to the test samples identified herein. The results set forth in this report are not indicative or representative of the quality or characteristics of the lot from which a test sample was taken or any similar or identical product unless specifically and expressly noted. Our report includes all of the tests requested and the results thereof based upon the information provided to us. The applicant has 60 days from date of issuance of this report to notify us of any material error or omission. Failure to raise such issue within the prescribed time shall constitute your unqualified acceptance of the completeness of this report, the tests conducted and the correctness of the report contents. Unless specific mention, the uncertainty of measurement has been explicitly taken into account to declare the compliance or non-compliance to the specification. The report must not be used by the client to claim product certification, approval, or endorsement by any government agencies. This report is not to be reproduced by any means except in full and in any case not without the written approval of Vista Laboratories.

Antenna Information

Manufacturer	Taoglas
Antenna Type	Monopole antenna
Antenna Name	Dual band WiFi Hinged Rotatable Antenna
Antenna Part Number	GW.05.0153
Antenna Frequency Range	2400 - 2483 MHz 5150 - 5250 MHz 5250 - 5350 MHz 5470 - 5725 MHz 5725 - 5850 MHz 5850 - 5895 MHz 5925 - 6425 MHz 6425 - 6525 MHz 6525 - 6875 MHz 6875 - 7125 MHz
Antenna Connector	RP-SMA (M) Connector
Antenna Length	62.3mm ± 1.5mm
Antenna Diameter	10mm
Weight	6g
Radiation	Omni-directional
Polarization	Linear
Impedance	50 Ω
Input Power	10W

2. Antenna Configuration/Orientation

Type	Description	Photo
Titan Taoglas antennas	The Titan Taoglas antennas are mounted on a metal plane which will be oriented in the end product as shown at the right. Two identical antennas are installed; both are with bent position 90 deg but in different orientation.	 A photograph showing two Titan Taoglas antennas mounted on a metal plane. The antennas are green and have a bent position of 90 degrees. They are mounted on a metal plane which is part of a larger assembly. The background is a white surface with a grid of black cross-shaped patterns.
Xanthus Taoglas antennas	The Xanthus Taoglas antennas are mounted on a metal plane which will be oriented in the end product as shown at the right.
