Request for Confidentiality

Date 1/21/2005

American Telecommunications Certification Body, Inc.
6731 Whittier Avenue
Suite C110
McLean, VA 22101

RE: Certification Application
FCC ID: N6SGBIR14

To Whom It May Concern:

In reference to FCC ID N6SMRIR14, Gilbarco is requesting confidentiality for schematic diagrams.

Gilbarco posted file: **Contactless Smart Card Reader Electrical Schematics N6SGBIR14.pdf**

Panasonic posted files on behalf of Gilbarco as follows:

- Electrical schematics of Hybrid Card Reader Assembly ZU-1870CF22
*** **When their confidential files are posted, Panasonic may submit a more detailed letter of confidentiality for the documents that they wish to have kept confidential** ***

This request is being made under the provisions of Section 0.457(d) of the Commission's rules, and Section 552(b)(4) of the Freedom of Information Act. These schematic diagrams are proprietary and not customarily released to the public. As a matter of fact, those schematics involving the Texas Instruments series 5000 components were posted directly by TI (even Gilbarco is not privileged to view them).

These schematic diagrams should fall within the scope of Section 552(b)(4) as trade secrets. Under the provisions of Section 0.457(d), these schematic diagrams should not be routinely available for public inspection.

The application contains technical information, which Gilbarco deems to be trade secrets and proprietary. If made public, the information might be used to the disadvantage of the applicant in the market place.

Thank you for your attention to this matter.

Sincerely,

Lester Ward (Manager of Reliability Engineering)
