RE: Certification Application

FCC ID: N6SMRIR8

To Whom It May Concern:

In reference to FCC ID N6SMRIR8, Marconi Commerce Systems is requesting confidentiality for schematic diagrams.

Marconi Commerce Systems posted file: Electrical Schematics & EMC Components N6SMRIR8

Texas Instruments posted files on behalf of Marconi Commerce Systems as follows:

- Electrical schematics of MicroReader RI-STU-MRD1
- Electrical Schematics of Radio Frequency Module RI-RFM-007B

Texas Instruments may wish to submit a more detailed accounting of the documents that they wish to have kept confidential

This request is being made under the provisions of Section 0.457(d) of the Commission's rules, and Section 552(b)(4) of the Freedom of Information Act. These schematic diagrams are proprietary and not customarily released to the public. As a matter of fact, those schematics involving the Texas Instruments series 5000 components were posted directly by TI (even Marconi Commerce Systems is not privileged to view them).

These schematic diagrams should fall within the scope of Section 552(b)(4) as trade secrets. Under the provisions of Section 0.457(d), these schematic diagrams should not be routinely available for public inspection.

The application contains technical information which Marconi Commerce Systems deems to be trade secrets and proprietary. If made public, the information might be used to the disadvantage of the applicant in the market place.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in cursive script that reads "Lester Ward". The ink is black and the signature is centered on the page.

Lester Ward (Manager of Reliability Engineering)
