Columbia, MD 21046

Dear Sir/Madam,

Sierra Wireless has already certified MC8700's FCC Grant (FCC ID: N7NMC8700) by EMCC as TCB before. However, there was mistake in calculation of wrong MPE in the previous MPE report (No. SHEMA00909109403), which was issued by SGS-CSTC Standards Technical Services (Shanghai) Co., Ltd before.

As an authorized lab, CETECOM (Shanghai) Testing and Consulting Co., Ltd. would like act on behalf of Sierra Wireless to apply for updating the FCC Grant to correct it. This update doesn't require any change to product MC8700's hardware and firmware. The Label and external photos are unchanged as well.

The product MC8700 has not been commercially launched to the market in U.S.A yet. Please accept the dismissal application so that we can fix the problem ASAP.

Thank you very much!

Sincerely,

Applicant: Yi CHEN (project manager)
