Re: FCC ID: N7NRC76C  
Request to Add Part 25 Supplemental Coverage from Space Designation

To Whom it May Concern:

By the associated FCC Form 731, we request that the FCC add FCC Rule Part 25 supplemental coverage from space ("SCS") capability to the device referenced above. We also seek to take advantage of the process that the FCC established in the Report and Order released on March 15, 2024, in GN Docket No. 23-65 and IB Docket No. 22-271 (FCC 24-28) for waivers of Sections 2.1043(c), 2.911(c), and 2.911(e) of the rules.

There are no hardware or software changes; therefore, radiofrequency emissions remain unchanged. Additionally, we have included the attestation required under Sections 2.911(d)(5) and (7) of the FCC's rules.

Should you have any questions or require additional information, please contact the undersigned directly.
