

FCC statement: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This product has been tested and complies with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which is found by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and devices
- Connect the equipment to an outlet other than the receiver's
- Consult a dealer or an experienced radio/TV technician for assistance

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Radio Frequency 2.4GHz band operation of this product in the USA is firmware-limited to channels 1 through 11

FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance 35 cm between the radiator and your body. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter except in accordance with FCC multi-transmitter product procedures.

Innovation, Science and Economic Development Canada Statement:
ICES-003(B) / NMB-003 (B)

Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

The device could automatically discontinue transmission in case of absence of information to transmit, or operational failure. Note that this is not intended to prohibit transmission of control or signaling information or the use of repetitive codes where required by the technology.

IC Radiation Exposure Statement: This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 35 cm between the radiator and your body. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter except in accordance with IC multi-transmitter product procedures.

Innovation, Sciences et Développement économique Canada :
ICES-003(B) / NMB-003 (B)

Le fonctionnement est soumis aux deux conditions suivantes : (1) Cet appareil ne peut causer des interférences, et (2) il doit accepter toute interférence, notamment des interférences qui peuvent provoquer un fonctionnement non désiré de l'appareil.

L'appareil peut interrompre automatiquement la transmission en cas d'absence d'informations à transmettre ou de panne de fonctionnement. Notez que cela n'a pas pour but d'interdire la transmission d'informations de commande ou de signalisation ou l'utilisation de codes répétitifs lorsque la technologie l'exige.

Concernant l'exposition aux rayonnements : Cet équipement est conforme aux limites de l'IC sur l'exposition aux rayonnements établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé à une distance minimale de 35 cm entre le radiateur et vous. Cet appareil et ses antennes ne doivent pas être installés au même endroit ou fonctionner en association avec une autre antenne ou un autre émetteur, sauf conformément aux procédures IC relatives aux multiémetteurs.
