RE: Comments of March 15, 2004
APPLICATION: NB31033 Highway Technologies, Inc.

Dear Mr. Ward:

Below are the comments that you have provided regarding the application for certification referenced above. Our responses to those comments are in ***bold italic***. Many responses refer you to additional exhibit(s) which has been uploaded to the application folder at the ATCB website.

Thank you for your attention. Please feel free to contact us for any additional information that you may require.

Regards,

Gregory M. Snyder
Chief EMC Engineer, Wireless/Telco Services Manager

Brian J. Dettling
Documentation Specialist

WLL Project: 7871

1) Please note that the 7 inch separation distance mentioned in the manual puts this device in the portable category. Please note that the separation distance needs to be 20cm or 7.9 inches. Please revise the manual for mobile use separation distances. Please use either the standard 20cm separation or alternately please use 7.9 or 8 inches as the separation distance.

R. The manual has been changed to reflect the correct separation distance. Please see exhibit "Wizard User Manual rev1.pdf."

2) Please provide the tune-up procedure for this device.

R. The manufacturer attests that the Uniden radio (FCC ID: AMW3K2-317) contained in the device is not operationally altered, therefore no additional tuning is required. Please see exhibit “HTI Tuning Attestation Letter.pdf.”
