Re: FCC ID: NC3-14024VL

To Whom It May Concern:

The following application is submitted on behalf of our client, Attenti US, Inc., for evaluation of their model 14034AVL, 14044AL, 14054VL, 14064CL for a C2PC certification under FCC Part 15.247.

C2PC to replace preapproved LTE modem with FCC ID: RI7LE910NAV2. Difference between the models are the wireless carrier SIM cards that can only be installed at the factory. Device has been evaluated for radiated intermods and found to be in compliance.

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely
