To access the Participant Menu, press the left button.

MAKE CALL: Displays the officer-defined phone numbers that the TRAK2 can dial.

VIBRATE & SOUND: Changes the TRAK2's alert mode.

Trak2 Buttons

Left Button

The left button is used to open the participant menu, navigate the menu items, and to return to the previous screen.

Right Button

The right button is used to select a menu item.

RF Exposure Statement:

Allied Universal Electronic Monitoring Offender tracking device, Model 25005AVL, has been evaluated under FCC Bulletin OET 65C and found to be compliant with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device is to be used solely by law enforcement agencies for tracking purposes.

The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter except in accordance with FCC multi-transmitter product procedures.

The use of accessories not approved by Allied Universal Electronic Monitoring, including but not limited to batteries, antennas, wall adapters, chargers and belt clips may cause the device to malfunction or in the case of unapproved electrical accessories may lead to hazardous conditions, cause the device to exceed RF energy exposure guidelines, and/or damage to the device.

FCC Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

Note: Modifications to this device shall not be made without the written consent of Allied Universal Electronic Monitoring. Unauthorized modifications may void the authority granted under Federal Communication Rules permitting the operation of this device.

Device models are: TRAK2 V and TRAK2 A

Related FCCID: NC3-25005AVL

This device complies with Part 15 of the FCC Rules. Operation to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation
