TROUBLE SHOOTING AND CARE FOR R/C VEHICLES

PROBLEM! VEHICLE DOES NOT MOVE

Are the + and - contacts correctly matched in transmitter?
Are the metal contact tabs touching, rusty or dirty in transmitter?
Are there batteries in vehicle and transmitter?
Is the power switch on vehicle and transmitter turned on?

PROBLEM! VEHICLE RUNS SLOWLY

The battery is weak or fading.
Batteries are miss matched or old.

Range

When vehicle goes beyond radio signal contact, loss of control or slowness will occur. Extend transmit antenna higher for re-contact. Ensure antenna is screwed on tightly.

Battery Life

Extend battery life by switching off when not in use.

Interference

Advisable not to use vehicle close to high tension wires or CB radios.

HINTS FOR MAINTENANCE

Radio waves interference may affect behaviour of the vehicle. Special care for your vehicle is mentioned below.

Do not abuse your vehicle

1. Avoid wet, sand and high impact collisions. Off road vehicles run easily on grassy surfaces.
2. Avoid using vehicle on sand or dusty areas.
3. Avoid using vehicle for long periods under direct sunlight. Sunlight or excessive heat may damage sensitive / electronic instruments.
4. Store vehicle transmitter in dry cool places away from heaters or warm areas.
5. Collision with hard surface may damage vehicle.
6. Vehicle will not perform on thick carpet or dusty floors.
7. Avoid running two vehicles of the same frequency / Purchase two vehicles with different frequencies instead.
8. Always brush your vehicle after use to remove dust. Keep vehicle clean.
9. Always wipe vehicle with soft rag or cloth. Avoid cleaning vehicle with water or any chemicals

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules and ICESITE. It is designed to provide radio communication. It is not intended to provide protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not properly installed and used, may cause interference with radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

THIS PRODUCT IS FOR THE USE IN U.K., SPAIN, GERMANY, FRANCE, BELGIUM, ITALY, SWITZERLAND, THE NETHERLANDS, DENMARK, PORTUGAL, CANADA AND U.S.
