Chief, Equipment Authorization Branch,
Authorization and Evaluation Division,
Office of Engineering and Technology
FEDERAL COMMUNICATIONS COMMISSION
P.O. Box 358315
Pittsburgh, PA 15251-5315

Gentlemen:

The enclosed documents constitute a formal submittal and request for a Class II Permissive Change pursuant to Subpart E of Part 15 of FCC Rules (CFR 47) regarding changes to intentional radiators. A change is being proposed to the Wavespan Corporation model Stratum 100, which would result in changes to the performance characteristics originally reported to the Commission. Since the Stratum 100 is presently certified, an emissions test has been performed to demonstrate that it continues to comply with FCC Part 15 limits for intentional radiators.

Elliott Laboratories, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is enclosed. Please also find enclosed a check in the amount of \$45.00 for the application fee.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

David W. Bare
Principal Engineer

Subject: Agent Authorization

Gentlemen:

This is your letter of authorization to accept our appointment of Elliot Laboratories, Inc. as Agent for Wavespan Corporation, 500 N. Bernardo Avenue, Mountain View, Calif. 94043, to sign applications before the Commission and to make representations to them on our behalf. Elliot Laboratories is to receive and exchange information between our company and the commission. This authorization is made pursuant to Section 2.911 (c) of the FCC Rules and expires on September 26, 2000.

Sincerely,

Mark Byington
Chief Technical Officer
