Dear Mike,

Thank you for your advise over the phone. It was really good to talk to you.

Please find an attached file of Technical description for NHVVG1U118. As you advised, please take operational description submitted before as user manual. And please accept attached file "Revised operational description" as operational description of NHVVG1U118.

We are looking forward to hearing from you.

Best regards,

Motomu Kawano

Dear Motomu:

The user manual provided only contains portion for transmitter. The Equipment Under test is a receiver. Please provide a complete User Manual (Keyless Entry System) which include Transmitter portion and receiver portion. This user manual is the one that Tohoku will bundle with the device on the time of marketing.

Best Regards

Mike Kuo / TCB Certifier.

Dear Motomu:

FCC 15.105(b) information to user is required for Class B digital device. For transmitter and Receiver, there are no Class A or Class B technical requirements. 15.105(b) states " For a Class B digital device or peripheral, the instructions furnished the user shall include the following or similar statement, placed in a prominent location in the text of the manual : " Note: This equipment".

There are two statements that are applicable to Transmitter and Receiver. They are :

15.21 " Information to user " and 15.19(a)(3)"Labelling requirement".

There are three statements that are applicable to Digital Device. They are :
15.21 " Information to user " and 15.19(a)(3) " Labeling requirement" and 15.105
" Information to User".

Best Regards

Dear Mike,

Thank you for your reply.

Now, we are in preparation of document to submit you. As soon as we get ready, we submit in due course.

Please let me ask you one thing on behalf of our client.

As this device is a receiver of keyless entry system (and the manual is for this system, transmitter and receiver.), Tohoku ALPS would like to confirm that the Transmitter also doesn't need "NOTICE" of 15.105.

Although I explained them the definition that transmitter of keyless entry is not digital device, they would like to have opinion of TCB. Since it is very helpful for them to explain this matter to their client (Car manufacturer), would you please confirm that the for keyless entry system doesn't need to put the 15.105 statement in its manual?

Best regards,

MotomuKawano

> > Question #2: The " Notice " statement that you included in the user
