Table of Contents

1	Housings	3
1.1	Plastic single chamber	3
1.2	Plastic double chamber	3
1.3	Aluminum single chamber	4
1.4	Aluminum double chamber.....	5
1.5	Stainless steel single chamber (electropolished)	6
2	Antennas	7
2.1	Plastic Horn Antenna.....	7
2.2	Flange with encapsulated antenna system	9
2.3	Flange with lens antenna	11
2.4	Thread with integrated horn antenna.....	12
2.5	Horn antenna for high temperatures.....	13
2.6	Hygienic antenna.....	13
3	Sensors	14
3.1	NCR-86 with plastic horn antenna and aluminum single chamber housing.....	14
3.2	NCR-86 with plastic horn antenna and aluminum double chamber housing	15

1 Housings

1.1 Plastic single chamber

1.2 Plastic double chamber

2.4 Thread with integrated horn antenna

2.5 Horn antenna for high temperatures

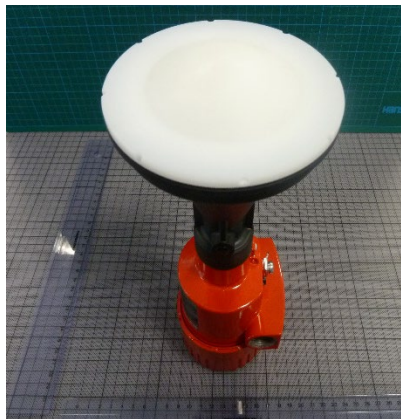

2.6 Hygienic antenna

3 Sensors

In the following chapter, the modular system between the housing and the antenna is presented as an example.

3.1 NCR-86 with plastic horn antenna and aluminum single chamber housing

NCR-86 External Photos

3.2 NCR-86 with plastic horn antenna and aluminum double chamber housing
