

***** USER'S MANUAL *****

FCC ID : NKF-SILVERWORK II

Federal Communications Commission (FCC) Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

Warning : A shielded-type power cord is required in order to meet FCC emission limits and also to prevent interference to the nearby radio and television reception. It is essential that only the supplied power cord be used.

Use only shielded cables to connect I/O devices to this equipment.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

Silverwork II

Ultra 2 LVD SCSI

Disk Array system

User's Guide

Version 1.0

Important ! Safety Instructions, Care and Handling

1. Before starting, take a few minutes to read this manual, read all of these instructions and save this manual for later reference.

2. Protect the Disk Array from extremely high or low temperatures. Let the Disk Array warm (or cool) to room temperature before using it.

3. Protect the Disk Array from being bumped or dropped. Do not place this product on an unstable cart, stand, or table. It may fall, causing serious damage to the product.

4. Keep the Disk Array away from magnetic forces.

5. Do not use this product near water.

6. Keep the Disk Array away from dust, sand, or dirt.

7. Gaps and openings in the cabinet and the back are provided for ventilation. To ensure reliable operation and to protect it from overheating, the gaps and openings should never be blocked or covered by placing the product on a bed, sofa, rug, or other similar surface.

8. Do not place this product near or over a radiator or heat register.

9. Refer to rating plate for voltage and check that the appliance voltage corresponds to the supply voltage.

10. The appliance must be grounded. This product is equipped with a 3wire grounding-type power cord, this power cord will only fit into a groundingtype power outlet.

11. If an extension cord or a power center is used with this product, make sure that the total of all products plug into the wall outlet does not exceed the ampere rating.

12. Do not place the Disk Array where the cord will be walked on.

13. Never push any kind of object into this product through cabinet gaps and openings, they may touch dangerous voltage points cause a risk of fire or electric shock.

14. Unplug the power cord from the wall outlet before cleaning. Keep the Disk Array dry. Do not use liquid cleaners, aerosol cleaners, or a wet cloth. Use a damp cloth for cleaning.

15. Except as specifically explained in this User's Manual, please do not attempt to service this product by yourself. Opening or removing the covers may expose you to dangerous voltages.

16. Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions :
- If this product has been exposed to water or any liquid.
 - If the product has been dropped or the cabinet damaged.

Operating Environment

When selecting a suitable working location, please consider :

- Ventilation
- Temperature
- Dust and dirt
- Electromagnetic and Radio Frequency Interference.
- Security

The selected location should provide at least six inches of open space around the Disk Array cabinet for proper air flow.

Your Disk Array functions best at normal room temperature. Choose a location free from extreme heat or cold.

Warning! The Disk Array's LCD Panel may be damaged by exposure to intense sunlight. Limit exposure to indirect or subdued sunlight only.

Your Disk Array should be used in a clean environment that is free from airborne contaminants such as dust, dirt, and smoke. Excessive moisture or oil particles in the air can also hinder your system's performance.

To reduce the possibility of data errors caused by electromagnetic interference, locate your Disk Array at least five feet away from electrical appliances and equipment that generates magnetic fields.

About This Manual

This manual serves as a useful guide you can refer to when you wish to install and operate your Disk Array. It includes the following information :

- Chapter 1 : " Introduction "
Introduces you to your new Disk Array's features and general RAID concepts.
- Chapter 2 : " Getting Started "
Describes general information about this Disk Array.
- Chapter 3 : " Configuration "
Provides a Quick and Easy way to setup this Disk Array.
- Chapter 4 : " Advanced Information "
Describes information in more detail.
- Chapter 5 : " Hot-Swap "
Describes Hot-Swap components.
- Appendix A : " Technical Specification "

Contents

Chapter 1 : Introduction

Features	1-2
General RAID concepts	1-4
RAID Level 0	1-5
RAID Level 1	1-7
RAID Level 3	1-8
RAID Level 5	1-10
Summary Comparison of RAID Levels	1-12
Supported RAID Levels	1-13
Multi-SCSI Format support	1-14

Chapter 2 : Getting Started

General Overview	2-1
Unpacking & Checklist	2-2
Choosing a place for Disk Array	2-3
Identifying Parts of Disk Array	
Front View	2-4
Rear View	2-5
Power Source	2-6
Hard Disk Drives Pre-Setting	2-7
About HDD's SCSI ID#	2-8
Installing the Hard Disk Drive	2-9
Host Linkage	2-12
Power-On & Self-Test	2-13
LED Display & Function Keys	
LED Display	2-14
Function Keys	2-15
LCD Status Panel	2-16

Chapter 3 : Configuration

General Overview	3-1
Configuration from the front Panel	3-2
