FOR THE USER: Please read the user manual for more information.

FCC Compliance statement:

The following statement will appear on the product, as shown elsewhere in this report. It may also appear in the instruction manual that accompanies each device, or on the packaging carton for each device:

"This product complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation."

User Information:

Also, the user's manual or instruction manual will caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
