

Subject: supplement for NKRDRUZ

Dear Dennis,

Here are our answers for the subject

1. A SAR report and a re-test 15C report are uploaded.
2. An updated product specification is uploaded. (file name: technical specification_FCC)
3. An updated users' manual is uploaded. (file name: user manual_FCC)
4. Item for country region selection function was removed, please refer the updated manual.

The applicant confirmed that

They will have a specific driver for USA region. The frequency range will be fixed on 2400-2483.5 MHz.

Please review the information we submitted

Thanks for your help.
