

RF Exposure Justification

Date: August 21, 2026

To Whom It May Concern,

Regarding FCC ID: NKRIMQ8F

This application for a permissive change is to add support for the Supplemental Coverage from Space (SCS) under Part 25 of FCC's rules through software update only, i.e., no hardware changes. To support this C2PC application we are submitting the SCS report and the Part 22, 24E and 27 test reports referenced therein that were submitted for the original equipment approval for this device.

As this permissive change does no change the hardware, the output power or software the original RF exposure assessment remains representative and thus no new RF exposure report is being submitted.

Thank you.
