

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

1) This device is prohibited for operation on an aircraft, a ship or a satellite, including the operation of toys. 2) This device is prohibited for use with antennas mounted on outdoor structures, e.g., antennas mounted on the outside of a building or on a telephone pole, or any fixed outdoors infrastructure.

Radiation Exposure Statement:

The product comply with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Professional installation instruction

1. Installation personal

Professional installation is required. This product is designed for specific application and needs to be installed by a qualified personal who has RF and related rule knowledge. The general user shall not attempt to install or change the setting.

2. Installation Limitations

The final installation must comply with the handheld limitations of §15.519 for outdoor usage. The operator must be able to exercise control over the device, or the object to which the device is affixed, while the device is operating. Fixed infrastructure installation is strictly prohibited under §15.519.

3. Antenna Limitations

This device uses internal patch antennas. Non-approved antenna(s) and/or external antennas are not permitted for use with this device.

The use of antennas mounted on outdoor structures, e.g., antennas mounted on the outside of a building or on a telephone pole, or any fixed outdoors infrastructure is prohibited. Antennas may be mounted only on the handheld UWB device.

4. Installation procedure

Please refer to user's manual for the detail.

5. Warning

UWB devices may not be employed to operate toys. Operation on board an aircraft, a ship, or a satellite is prohibited.

Please carefully select the installation position and make sure that the final usage configuration does not violate limitations set forth in the relevant rules. Violation of the rules could lead to serious federal penalty.
