

Important Safety Information – Read Before Use

The [Vive Tracker] product (the “product”) is intended to be used with other peripheral devices (“peripherals”) with a virtual reality system. Read the following warnings and information before use of the product and follow all safety and operating instructions applicable to the product, the peripherals, and your virtual reality system. Failure to do so may cause bodily injury, electric shock, fire, and property and other damage.

Ensure You Are Able to Safely Use the Product

Consult your doctor before using the product if you have pre-existing serious medical conditions (such as a heart ailment), conditions that affect your ability to safely perform physical activities, psychiatric conditions (such as anxiety disorders or post-traumatic stress disorder), or if you are pregnant or elderly.

Do not use the product if you are sick, fatigued, under the influence of intoxicants/drugs, or are not feeling generally well, as it may exacerbate your condition.

Ensure the Area Around You is Safe for Use of the Product

While wearing a virtual reality headset you are blind to the world around you. The image displayed in the headset will not match the real world. Always use the product in a clear and safe area. Do not rely on the chaperone system for protection. Do not use the product near stairways, large windows, breakable items, heat sources, or outdoors. Clear the play area of people, furniture, and other things that may be obstacles or block you from freely moving around. For example, if a pet comes into the room while you are in virtual reality, you likely will not be aware of the pet’s presence and you could trip over your pet while moving in the virtual reality environment.

Be careful when handling and using your product and peripherals, as obstacles in the real world may not be perceived while in virtual reality. Be sure to review and follow all safety information included with peripherals you may attach to your product. Depending on the size and nature of the peripheral to which you attach the product, additional hazards may be presented. Please choose peripherals carefully and only use those that are compatible with the size and nature of your play area.

It is recommended that the product be used only while under the supervision of another person (to remain outside the play area) who is ready to warn of hazards that may arise while the product is being used. Examples of hazards that could arise include, but are not limited to, tangling of a cable in a manner that presents a tripping hazard, pets entering the area where the product is being used, and the user walking too close to a wall or another hazard.

Take Care of the Product

While using the product and peripherals, always check that you have sufficient overhead and surrounding clearance to allow you to fully extend your arms outward and upwards, including clearance for the peripheral. Hitting persons or objects may cause injury or damage. Hold the

product and/or peripherals firmly and follow all instructions included with the peripherals. If released while using, the product and/or peripheral may cause injury or damage.

Repetitive Stress Injuries

Operate the product and peripherals in a comfortable posture. Do not grip the product or peripherals too tightly. Press the buttons lightly. If you have tingling, numbness, stiffness, throbbing, or other discomfort, immediately stop using the product and consult your doctor.

Radio Frequency Interference

The product can emit radio waves that can interfere with the operation of nearby electronic devices. If you have a cardiac pacemaker or other implanted medical device, do not use the product until you have consulted with your doctor or the manufacturer of your medical device.

Avoid Overuse

Prolonged, uninterrupted use of the product or peripherals should be avoided. It may negatively impact hand-eye coordination, balance, and/or cause other negative effects. While using the product or peripherals frequently and for prolonged periods of time, you may experience tiredness or soreness in your muscles, joints, or other body parts. Take regular breaks from using the product. The length and frequency of necessary breaks may vary from person to person.

Use by Children

The product was not designed to be used by children. Do not leave the product within the reach of young children or allow them to use or play with it. They could hurt themselves or others, or could accidentally damage the product.

The product may contain small parts with sharp edges that may cause an injury or which could become detached and create a choking hazard for young children. Consult your doctor immediately if any parts of the product or peripherals are swallowed.

If older children are permitted to use the product, then adults should monitor them closely for any negative effects during and after their use of the product. Do not allow older children to use the product if negative effects are observed. Adults should also ensure that older children avoid prolonged use of the product.

General Use and Maintenance Instructions

Electrical Safety

This product is intended for use when supplied with power from the designated batteries or power supply units. Other usage may be dangerous and will invalidate any approval given to this product.

Safety Precautions for Power Supply Unit

- Use the correct external power source. A product should be operated only from the type of power source indicated on the electrical ratings label. If you are not sure of the type of power source required, consult your authorized service provider or local power company. For a product that operates from battery power or other sources, refer to the operating instructions that are included with the product.
- The product should be operated only with the designated power supply unit, HTC, Model TC NE5W-US,
- Handle battery packs carefully. The product contains a lithium-ion polymer or lithium-ion battery. There is a risk of fire and burns if the battery pack is handled improperly.

WARNING: To reduce risk of fire or burns, do not disassemble, crush, puncture, short external contacts or circuits, expose to temperature above 60° C (140° F), or dispose of in fire or water. Recycle or dispose of used batteries according to the local regulations or reference guide supplied with your product.

- Do not expose to liquid.
- Keep batteries out of the reach of children.
- Avoid dropping the product. If dropped, especially on a hard surface, and the user suspects damage, take it to a service center for inspection.
- If the battery leaks:
 - Do not allow the leaking fluid to come in contact with skin or clothing. If already in contact, flush the affected area immediately with clean water and seek medical advice.
 - Do not allow the leaking fluid to come in contact with eyes. If already in contact, DO NOT rub; rinse with clean water immediately and seek medical advice.
 - Take extra precautions to keep a leaking battery away from fire as there is a danger of ignition or explosion.

Safety Precautions for Direct Sunlight

Keep the product away from excessive moisture and extreme temperatures. Do not leave the product in places such as on a car dashboard, window sill, or behind a glass that is exposed to

direct sunlight or strong ultraviolet light for extended periods of time. The headset contains lenses which may focus and intensify bright light sources, causing damage to the hardware.

General Precautions

- Do not connect with incompatible peripherals.
- Do not attempt to disassemble this product.
- Use only qualified personnel to service or repair this product.
- Always treat the product with care and keep it in a clean and dust-free place.
- Do not expose the product to open flames or lit smoking products.
- Do not drop, throw or try to bend the product.
- Do not use harsh chemicals, cleaning solvents, liquid cleansers or aerosols to clean the product.
- Do not paint the product.
- Store the product at temperatures between 0°C to 40°C
- Please check local regulations for proper disposal of electronic products.
- Avoid hot areas. The product should be placed away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
- Avoid using the product after a dramatic change in temperature. When you move the product between environments with very different temperature and/or humidity ranges, condensation may form on or within the product. To avoid damaging the product, allow sufficient time for the moisture to evaporate before using the product. NOTICE: When taking the product from low-temperature conditions into a warmer environment or from high-temperature conditions into a cooler environment, allow the product to acclimate to room temperature before turning on power.

Damage Requiring Service

Contact an authorized service technician or provider under the following conditions:

- The product has been damaged by exposure to liquid, dropped, subject to impact or damaged.
- There are noticeable signs of overheating.
- The product does not operate normally when you follow the operating instructions.

Cleaning the Product.

Unplug the product from its power source before cleaning. Use a damp cloth for cleaning, but NEVER use water to clean the product. If there is any itching, eczema, swelling, irritation of the skin, or you experience any discomfort, please discontinue use and consult your physician.

About Vive Tracker regulatory agency identifications

For regulatory identification purposes, Vive Tracker product is assigned a model number of 2PYV100.

Vive Tracker FCC ID is NM82PYV100. This FCC ID can also be found printed on the Vive Tracker.

To ensure continued reliable and safe operation of Vive Tracker, use only the accessories listed below with your 2PYV100:

The Battery Pack has been assigned a model number of B2PYV100.

THE BATTERY IS NOT FULLY CHARGED WHEN YOU TAKE THE DEVICE OUT OF THE BOX.

NOTE: This product is intended for use with a certified Class 2 Limited Power Source, rated 5 Volts DC, maximum 1 Amp power supply unit.

European Union Notice

This device complies with Directive 2014/53/EU issued by the Commission of the European Community.

Frequency bands and Powers:

Vive Tracker:

- This device operates in the frequency of 2402MHz ~ 2480MHz.
- The maximum radio-frequency power is 3.07 dBm.

The device is confirmed to comply with the essential requirements of Article 3 of the Directive 2014/53/EU, if used for its intended use and that the following standards have been applied:

Health (Article 3.1.a of the Directive 2014/53/EU)

Applied standard(s): EN 50566: 2013 / AC:2014 / EN 62209-2: 2010 / EN 62311: 2008 / EN 62479:2010

Safety (Article 3.1.a of the Directive 2014/53/EU)

Applied standard(s): EN 60950-1: 2006 + A11: 2009 + A1: 2010 + A12: 2011 + A2: 2013

Electromagnetic compatibility (Article 3.1.b of the Directive 2014/53/EU)

Applied standard(s): Final Draft EN 301 489-1 V2.1.1 / -17 V3.1.1

Efficient use of the radio frequency spectrum (Article 3.2 of the Directive 2014/53/EU)

Applied standard(s): Draft EN 300 440 V2.1.1

About Vive Dongle regulatory agency identifications

For regulatory identification purposes, **Vive Dongle** is assigned a model number of 2PYV300.

Vive Dongle FCC ID is NM82PYV300. This FCC ID can also be found printed on the **Vive Dongle**.

To ensure continued reliable and safe operation of **Vive Dongle**, use only the accessories listed below with your 2PYV300:

European Union Notice

This device complies with Directive 2014/53/EU issued by the Commission of the European Community.

Frequency bands and Powers:

Vive Dongle:

- This device operates in the frequency of 2402MHz ~ 2480MHz.
- The maximum radio-frequency power is 0.94 dBm.

The device is confirmed to comply with the essential requirements of Article 3 of the Directive 2014/53/EU, if used for its intended use and that the following standards have been applied:

Health (Article 3.1.a of the Directive 2014/53/EU)

Applied standard(s): EN 50566: 2013 / AC:2014 / EN 62209-2: 2010 / EN 62311: 2008 / EN 62479:2010

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

FCC Caution:

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
- This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Industry Canada Statement

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter, except tested built-in radios.

Cet appareil et son antenne ne doivent pas être situés ou fonctionner en conjonction avec une autre antenne ou un autre émetteur, exception faites des radios intégrées qui ont été testées.

The County Code Selection feature is disabled for products marketed in the US/ Canada.

La fonction de sélection de l'indicatif du pays est désactivée pour les produits commercialisés aux États-Unis et au Canada.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un

environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.
