

PRELIMINARY

RADIO KEY® RK-WM

with DYNASCAN™ TECHNOLOGY

Radio Key® RK-WM Proximity Reader is designed to integrate into any system requiring an input in the Wiegand format. The reader will read any Secura Key proximity card or key tag and transmit the data in the Wiegand Format designated by the card or key tag.

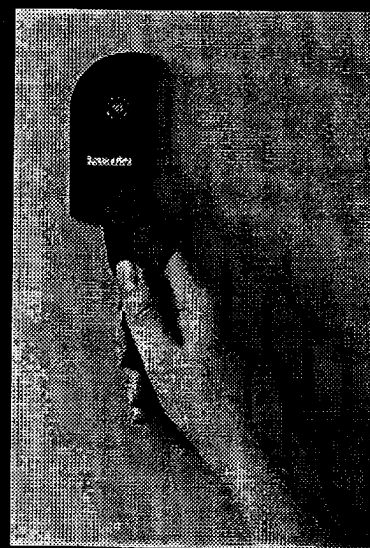

Secura Key's exclusive **DYNASCAN™** technology* assures maximum performance in any environment.

This completely potted unit is rated for extreme weather use and is vandal resistant.

Installation of the **Radio Key® RK-WM** is easy. Two screws mount the unit to a mullion, masonry wall, post, or almost any surface.

*Patent Pending

- **INEXPENSIVE**
- **EASY TO INSTALL**
- **ALL WIEGAND OUTPUTS**
- **EXTREME WEATHER RESISTANCE**
