

Letter Of Compliance with Title 47 §15.204 and attestation

American Telecommunications Certification Body, Inc.
6731 Whittier Avenue
Suite C110
McLean, VA 22101

To Whom It May Concern:

Pursuant to FCC Title 47 §15.204 (b) and (c), Nokia Wireless Routers is aware that the product configurations including an external amplifier and antenna, as specified in the certification application under FCC ID NPD-R242-V01, must always be marketed as a complete system and used only in the configurations for which authorization is granted. Further, Nokia Wireless Routers understands that in the product configurations without external amplifiers, only the antennas with which the configurations are authorized may be used.

Nokia Wireless Routers assumes responsibility of assuring compliance with the FCC rules and regulations for the complete configurations as specified, including the case in which the third party external amplifier manufacturer modifies the amplifier design.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Darren Lancaster", with a long horizontal flourish extending to the right.

Darren Lancaster
Director of Product Creation
Nokia Wireless Routers
