Attn: Ms. Gaspara

Subject: SAR Warning of DMC201

Dear Ms. Gaspara

According to your instruction, we have modified User Guide to include the warning sentence to use authorized body-worn accessories together with DMC201.

The sentence is inserted into the paragraph "Exposure to Radio Frequency Energy" on page 35 of the User Guide of BAM-201, which is identical model to DMC201..

Here is the quote of the part of the paragraph.

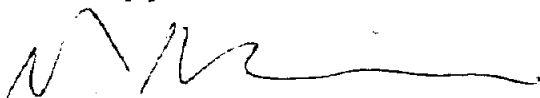

----- QT -----

The design of the BAM-201 phone complies with this updated standard. Of course, if you want to limit RF exposure even further than the updated ANSI standard, you may choose to control the duration of your calls and operate your phone in the most efficient manner.

Warning; Use authorized body-worn accessories only. (Leather Case 201CAS and Hands-free Headset EM425) Use other accessories may result exposure to excessive RF power.

-----UNQT-----

Sincerely yours.

Naohiko Matsudaira
