Pairing Your Bluetooth Tablet

(For Wireless)

What is Pairing?

Pairing- Pairing allows two devices to be setup and will recognize each other whenever these two devices meet again. **You need to pair each time you wish to connect your tablet.**

[!] Note: Make sure that batteries have been installed and your Bluetooth Tablet is switched on before pairing. (See ***Bluetooth Tablet Hardware Installation***)

- 1 Double click the ***My Bluetooth Places*** on your desktop.

- 2 Click ***View devices in range.*** Now your computer is searching for all the Bluetooth devices in range. Please wait.

- 3 Your computer has found the Bluetooth Tablet when icon appears.

This icon indicates that the Bluetooth Tablet is connected to PC.

- 4 Double click the  icon. The **Bluetooth Connection Status Window** will appear.

! Note: As your Bluetooth Tablet is connecting to PC, you can go to Step 3 to test your tablet.
