Subject: Attestation Statement regarding Spectrum Efficiency for FCC ID: NTASONATA4

We hereby attest that the transceiver under FCC ID: NTASONATA4 complies with the spectrum efficiency requirement of FCC Rule part 90.203(j).

Our device is designed for digital modulation and operates with a channel bandwidth of 6.25 KHz. Per the commission's efficiency standards, the system guarantees a data of at least 4,800 bits per second per 6.25 KHz channel.

Sincerely,

Itzhak Kanner

RF Manager, R&D
