67deg F 58 % relative humidity/EUT on table; Suppt is .

EUT on cable

Horizontal & Vertical antenna polarization; ant hts 1 to 4 m; 120V 60 0Hz; 180 deg azmt is w. IO cables twd ant
Software: 4 chunks, 2 swps, swp capture ON, Class B limits; manual scan looks clean

Only one qp msmt made; 990 mc comes from support equipment (modem).
217 MHz also came from support equipmt (modem).

30 to 300 MHz scan at horizontal antenna polarization, 167 antenna height: Modern is now turned off but EUT remains on.
