Attn: Director of Certification

Re: Compliance Statement in Automobile Manual

The Eagle Radar and Cotton Mass Flow Sensor are installed in agricultural automotive equipment as original equipment. We do not supply a manual with the unit but we do notify the equipment manufacturer of the required statements that must be placed in the equipment manual, meeting the requirements of the Federal Communications Commission CFR 47, Part 15, Paragraph 15.19(a)(3) and Industry Canada RSS-210, Paragraph 5.11:

A representative copy of this notification letter is attached.

Sincerely

John C. Thomas
Vice President of Engineering

The Eagle Radar and Cotton Mass Flow Sensor are installed in your equipment as original equipment. We do not supply a manual with this unit but we request that the following required statements be placed in the equipment manuals to meet the requirements of the Federal Communications Commission CFR 47, Part 15, and Industry Canada RSS-210.

COMPLIANCE STATEMENT

"This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and, 2) This device must accept any interference received including interference that may cause undesired operation."

MODIFICATION CAUTION STATEMENT:

"CAUTION TO USER: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment."

RF EXPOSURE CAUTION STATEMENT (for a mobile device that must maintain a separation distance of at least 20 cm):

"RF Radiation Hazard Warning: To ensure compliance with FCC RF Exposure requirements, this device must be installed in a location such that the antenna of the device will be greater than 20 cm (8 in.) from all persons."

Sincerely

John C. Thomas
Vice President of Engineering
