

Modular Approval Request FCC (KDB 996369 D01 & Part 15.212)

FCC ID: NUK-VTX352C

Items to be covered by Single modular transmitters .	Answer from applicant
1. The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield but must be on the module assembly.	Yes, the EUT has its own RF shielding.
2. The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	Yes, the EUT has its FIFO buffer.
3. The module must contain power supply regulation on the module.	Yes, the EUT has its own power supply regulation.
4. The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	Yes, the EUT employs a unique antenna connector.
5. The module must demonstrate compliance in a stand-alone configuration.	Yes, the EUT is tested in a stand-alone configuration.
6. The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748)	Yes, the EUT is equipped with an FCC ID label.
7. The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	Yes, the EUT complies with all applicable FCC rules, and the instructions are included in its Quick Start Guide.
8. The module must comply with RF exposure requirements.	Yes, the EUT complies with RF exposure requirements.

Note: A limited modular approval (LMA) may be granted for *single* or *split* modular transmitters that comply partially with the requirements above.

Name and surname of applicant (or authorized representative): Nidor Huang

Date: 25 November 2025

Signature:

A handwritten signature in blue ink that reads 'Nidor Huang'.
