Re: Low Power Gas RMI NVCRMI0003

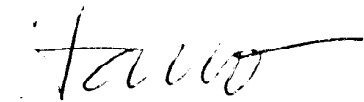

To whom it may concern,

This is a safety warning for the above product, which we will add to the installer's manual.

Warning! It is the responsibility of the installer of this Low Power Gas RMI, as well as the user of this product, that this product be placed at least 1.2 cm (.5 inches) from any person. This is necessary to insure the product is operated in accordance with the RF Guidelines for Human exposure which have been adopted by the Federal Communications Commission.

Sincerely,

Han Vo

RF Engineer
