Subject: User's Manual (Operational Instructions, OI) FCC ID: NWJ22A001A

Gentlemen:

This mobile is not intended for retail sales distribution in the United States. The manual that has been submitted is a preliminary copy of the English language version that is intended for use in Europe. Panasonic now separates their OI from the safety section (which is included in the retail packaging as a additional leaflet) of the target market. We have included a draft copy of the OI (NWJ22A001A_OI.pdf) and a draft copy of the European safety leaflet (NWJ22A001A_OI_Safety_Europe.pdf) as intended for release of this product. If sold in the United States, this manual would be written in "American" English and would include a safety leaflet formatted similar to the European version, but using all of the information contained in the submitted US preliminary draft version (NWJ22A001A_OI_Safety_US.pdf). In addition, Panasonic would update this filing to include the finalized versions of both of these documents.

Best Regards,

Pieter C. Seidel
