Inquiry Details on 06/08/2015:

First category: Equipment Authorization Process *

Second category: Declaration of Conformity (DOC) [Equip Auth]

Third category:

Subject: Label requirement of the product subjected to multiple authorization procedures

Inquiry: Dear Sir/Madam Good day? Based on KDB 784748, it's not required to label the statement of 15.19 (a) on the product that is subjected both of the FCC DoC and Certification procedures, but the DoC logo and FCC ID must be labelled, is it right? Looking forward your reply? Thanks & Regards? Sam Tung

FCC Response on 06/08/2015:

Go to our website: www.fcc.gov/oet/ea
 click on labelling guidelines KDB #784748 - Labelling Quick Guide for additional information. The device must have the appropriate FCC logo and FCC ID. The label on the device/produce shall be permanently affixed to the produce and shall be readily visible to the purchaser at the time of the purchase. The label must be designed to last the expected lifetime of the equipment in the environment in which the equipment may be operated and must not be readily detachable. For more information, see Section 15.19 of the FCC Rules and Regulations.

---Reply from Customer on 06/08/2015---

Dear Sir/Madam

Thanks for your quick reply!
 and may I understand that it's not compulsory to place the FCC compliance statement of 15.19 on the label for the product that is subjected to the FCC DoC and FCC certification procedure?

Sir, please give me a clear answer because the manufacturer is doubtful about this, thanks!

(Quote from KDB784748 D01 Labelling Part 15.18 Guidelines v08)

7. Multiple Authorization Procedures:

A device subject to multiple authorization procedures requires appropriate testing and labelling for each of the respective authorization procedures. As a general rule, the DoC text statement supersedes any Verification statement. For devices subject to DoC and Verification, or Certification and Verification, the labelling requirements for DoC or Certification need only apply. When a device is authorized under both the DoC and Certification procedures, the DoC logo and FCC ID (or FCC IDs if applicable) are required.
 (End of quote)

Sincerely

Sam Tung

FCC Response on 06/09/2015:

The FCC logo is to be displayed only on a device that require DoC approval. If the device requires certification, it must have a FCC ID number displayed on it. The compliance statement is to appear in the instruction manual or pamphlet supplied to the user.

Please refer to the FCC Rules and Regulations for additional information.

Thanks

FCC Response on 06/10/2015:

You received a response on June 9, 2015.

Thanks
