Radiation Exposure Statement

The product complies with portable RF exposure limit in Canada and the USA set forth for an uncontrolled environment and is safe for extended operation as described in this manual. Further RF exposure reduction can be achieved if the product can be kept as far as possible from the user/body.

Declaration d'exposition aux radiations:
 Le produit est conforme aux limites d'exposition aux radiations RF pour les appareils portables RF pour les États-Unis et le Canada établies pour un environnement non contrôlé.

Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être obtenue si le produit est tenu aussi loin que possible de l'utilisateur.

Restricted Use of Electronic Devices

The use of electronic/electric devices may interfere with safe operation of some aircraft and can be restricted with some airline companies. Please check with your airline company before traveling.

Declaration of Conformity

IMPORTANT INFORMATION - PLEASE READ BEFORE SETTING UP YOUR KURIO

- The tablet must be set up by an adult to ensure an appropriate level of protection for all users of the device.
- To turn off your Kurio tablet correctly, press the Power button until the pop up message appears on screen, and then select "Power Off". Avoid switching off the device by pressing and holding the Power button until the word stops.
- Do not fully discharge the battery (keep at 5% or more). Recharge it to full power regularly to prolong its life.
- Password Reset: Tech Support may not be able to retrieve your Parental Area password, so please don't forget to note it in a safe place. In case of a lost password, the tablet may have to be factory reset and all personal data will be lost.
- Updates: Updates are pushed to your tablet wirelessly.
- Please connect your Kurio tablet to Wi-Fi frequently to receive and enjoy the latest upgrades. Updates are pushed to your tablet wirelessly.
- If you encounter any issue with your device, please do not return it to the store. Please refer our FAQs & troubleshooting info or contact our tech support team for help at support@kurioworld.com/support/. You also can contact the tech support team through the Kurio Support App in the Parental Area.

Installation

Kurio Parental Account Setup

- **Language selection:** Select your language to continue. The language can be changed later from the Android settings.
- **Wi-Fi connection:** Select a Wi-Fi hotspot and connect to Wi-Fi (not mandatory but highly recommended).
- **Date & Time settings:** If connected to Wi-Fi, the date and time will be set automatically. If not, set the correct date and time.
- **Apps & Data restoration:** This screen appears if you already have a Google account on another device. You may want to restore the data and apps you had on that device. If not, choose "Set up as new device".
- **Parental Account Configuration:** Enter your email address and choose the Terms of Use.
- **Security password:** To protect your dependent account, you must set up a password (14-16, for code or visual pattern). Select an option and select the icon you want.
- **Restore pre-installed content:** This pop-up is displayed only in a factory reset. It allows you to download and install all the original apps. Skip this screen if you don't want to restore the products.

Create a Kurio Child Profile

- **Create 1st child profile**
You can create your first child's profile now or choose to create it later. Continue to access Kurio Devices.
- **Child profile Configuration**
Enter name, date of birth (important) and select the gender of your child. Validate.

Kurio Genius Overview

The Kurio Genius Parental app is pre-installed on the main screen of the parental profile, and will allow you to quickly access the main parameters and features of the Kurio System.

Main menu

From this screen, you can see the current settings for your child's profile. You can create a new profile, delete or manage existing ones, and you can also see the parental account settings. You also have access to all the submenus that will allow you to manage the parental control by pressing their icon.

- Child profile's information:** You can modify your child profile's name, birthday, and the top of the screen.
- Application Management:** To allow block or manage Internet access, use web filtering or web lists (websites that you configure from the app) to allow, block, and/or limit play time and session time.
- Web Access:** To allow or block Internet access, use web filtering or web lists.
- App Management:** To allow or block USB access or to activate or deactivate Google Account for the child profile.

From this icon, you can modify the main settings of your parental account (email address, password, and security questions) and access Customer Care (FAQ, contact us, support), where you can find information such as the Serial Number and the System version.

Application Management

- Authorize app switch:** Turn off this option if you don't want to authorize the child to switch between the apps you install on the tablet to the child profile.
- Restrict app access to the child profile:** Select apps from the list to authorize or to block to the child profile you are configuring.
- More apps of your choice:** More apps of your choice, categorized by pressing their name at the bottom of the screen or by selecting their icon from the app drawer in the child's profile.

You can import a list from another profile which you already configured to apply the same settings of authorization of apps or reset the list to default authorization.

Time Control

Thanks to the Time Control menu, you can select different parameters to control your child's use of his/her phone. You may limit the time of use of the phone at specific times of the day and for a specific duration.

- Access to category 'Educational':** Turn on the limitation to restrict the apps in the Educational category even while the access to the rest is being triggered by the child's profile.
- Time Control menu:**
 - Time Control:** Set a maximum number of possible use per week. Choose the time left by dragging the cursor to define the hours within which the child will be able to access his/her apps.
 - Session length:** Maximum duration of consecutive use.
 - Pause length:** Maximum duration between each session.

You can do this for the whole week, but also set different settings for specific days using the tabs at the top of the screen.

Web Access

Our advanced filtering system allows children to access thousands of websites safely, by blocking websites that may contain inappropriate content.

- Turn off Web Access from the Kurio Genius Main Menu to block all access to the Web.
- Turn on the Web filtering to use pre-defined filters of websites according to the age of your child. (Press the Web Access icon to access more options.)
- Turn on the Web list to use your personalized list of websites. (Press the Web Access icon to access more options.)

Web Access menu

Web filtering: Use the automatic web filtering list adjusted to your child's age by default or turn on custom parameters to disable or activate the filter on specific categories of your choice. You can press "Set to default" to go back to the default.

Web List: Create and manage your own list of websites by adding URLs to allow or to block. You can also list Kurio Genius filter automatically the added websites according to this profile's age by pressing the bulk icon. The green shield shows the filter is active (all black blocks access to the website), while the shield represents the absence of filter.

The list is common to all profiles but you can import a list from another profile to apply the same settings of filtering.

Profile settings

USB Access: Turns on the USB part when the device is connected to a PC or a USB host, such as an external hard drive.

Google Accounts: Allows your child to set up a Google account and access to Google apps (including the Play Store).

Reset Child password: If your child created a password to protect his profile, you can reset it by using this option.

Profiles menu

To access this menu, press the menu icon at the bottom right.

- **Create a new child profile.**
- **Edit** the current child profile.
- **Select another child profile** if you created more than one.
- **Access** Parental account settings.

Kurio Profile Interface

- **Avatar:** The avatar can be modified from the Child's menu.
- **Categories:** Use the categories to find your different apps.
- **Favorites:** Drag and drop your favorite apps in the Favorites tab.
- **Store:** Access directly the AppStore or Google Play.
- **Child's Device:** Access the Kurio Device app directly from your child's profile with your parental password.
- **Switch user:** Use this app to switch to another profile quickly.
- **Parental Control:** Access the Parental Control app directly from the child's profile interface.
- **Child's menu:** Access the different options of the child's profile interface.

Child's menu

- **Change my avatar:** Press here to select another avatar or to take a picture as the child's profile avatar.
- **Change my theme:** Press here to select another theme.
- **Change my wallpaper:** Press here to pick a new wallpaper or picture from the gallery.
- **Change my password:** Press here to create or modify the child's profile password.
- **Help:** Press here to read the help screens of the child's profile.
- **Switch user:** Press here to log out from this profile and access another one.
