Declaration Letter

I (DISET, S.A.), the undersigned, declares that the products S22040/i22040 (FCC ID: NXM-S22040) have only Bluetooth EDR mode for the normal function mode.

The Bluetooth chip AC6956C4 and AC6956C8 have EDR and BLE modes with independent Bluetooth protocol for each mode. In the software, it only enables the EDR mode and keeps the BLE mode closed, so that it only uses EDR protocol in working mode. And there is no way for user to enable the BLE mode either.
