Subject: Declaration of professional installation. FCC ID: NXW-RF285R

We, Siemens Aktiengesellschaft, DE-76181 Karlsruhe, Germany, declare that the product with FCC ID: NXW-xxxx is a SIMATIC RF HF and UHF product family and a SIMATIC RTLS product family containing HF RFID or UHF RFID / UHF RTLS radio modules manufactured by Siemens used for Industrial RFID or RTLS applications in industrial areas and factories only.

The SIMATIC RFID or SIMATIC RTLS are designed for industrial use cases. The products require typically 24V DC power with industrial cable connectors and are sold as a part of industrial solutions. A wide variety of antenna and cable options, combined with multiple configuration possibilities require that the installation is done by trained, electrical professionals.

Devices are sold either directly by Siemens AG, its subsidiaries, or by authorized distributors that support industrial companies across multiple industries (Including, but not limited to: Manufacturing, Oil & Gas, Electric Power, Transportation, and Marine). Devices are not intended for consumer use and therefore not sold to individual consumers. The providers of industrial solutions employ trained staff for the installation of the complete systems including the RFID and RTLS devices. For these installers certified trainings are offered by Siemens AG.

To prevent non authorized personal from making changes to the UHF RFID and RTLS settings or parameters Siemens products provide US specific radio profiles if necessary for products sold to the US.
