Subject
Explanation of request for confidentiality

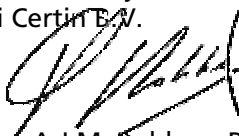

Federal Communications Commission
Attn: To whom it may concern
Office of Engineering and Technology
445 12TH ST SW
Washington DC 20554
U.S.A.

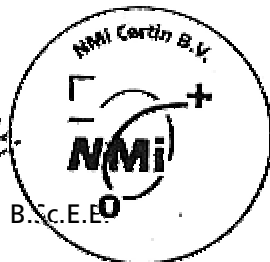

Dear Mr./Ms.,

We have submitted through a form 731 a request for confidentiality pursuant to 47 CFR section 0.459 regarding FCC ID: NXYTRANKART which was previously submitted with reference number EA95246.

The reason for this request for confidentiality is the fact that in the electronic filing guide, available for download at the OET electronic filing pages, it is stated that at the present time uploaded exhibits, associated with applications and issued grants, can not be viewed over the internet (page 2-23 of the electronic filing guide, last line). It shows that at the present time it is possible to view and download exhibits, associated with issued grants, from the FCC database. Therefore we kindly request that the exhibits as listed in the submitted request for confidentiality will be marked as confidential in the FCC database.

Yours sincerely,
NMI Certin B.V.
