

The image displays a small, rectangular electronic component, possibly a car alarm or immobilizer module. It features a black plastic casing with a silver-colored metal base. A prominent yellow label on the front provides technical details:

- Model:** PADC12
- Manufacturer:** HANSON ELECTRONICS CO., INC.
- Part Number:** PADC12-001
- Barcode:** A standard 1D barcode is present below the part number.
- Serial Number:** XXX
- Dimensions:** 100mm x 60mm x 25mm
- Weight:** 10g
- Material:** ABS Plastic
- Color:** Black
- Finish:** Matte
- Notes:** This device is designed for use in vehicles equipped with a factory-installed anti-theft system. It must be installed by a qualified technician.

The device is shown alongside two rulers for scale. The top ruler measures in centimeters (0 to 100), and the bottom ruler measures in millimeters (0 to 200). The device's length is approximately 10 cm, and its width is about 4 cm.
