Attention: Authorization & Evaluation Division

Application for Certification of Gentex Corporation Transmitter under 47 CFR 15.247.
Model: DEFRX6 FCC ID: NZLDEFRX6

To whom it may concern,

Gentex Corporation requests approval for the HomeLink Default Receiver. The default receiver is a tool developed by Gentex Corporation to verify the default Sub GHz and BLE test signals coming from the HomeLink Universal Garage Door Opener product in manufacturing.

In its operating mode, the Default Receiver operates (receive only) at 310MHz, 315MHz, and 433MHz. It also operates as a transceiver at 2400 – 2483.5 MHz under the requirements of FCC part 15.247 using the Bluetooth® Low Energy protocol.

The Federal Communications Commission will be notified, in writing, of any changes in the software/programming of this device that could affect its RF characteristics. Please do not hesitate to contact me with any questions you may have regarding this report. As always, we look forward to your timely response.

Sincerely,

A handwritten signature in blue ink that reads "Brian R. Miller".

Brian Miller
Lab Regulatory Group Leader II
