Application for Certification of Gentex Corporation Transmitter under 47 CFR 15.231.
Model: SAHL5P FCC ID: NZLSAHL5P

To whom it may concern,

Gentex Corporation requests approval for the SAHL5P product, which is a programmable frequency garage door opener to be installed in the automobile visor. The Gentex model SAHL5P is part of the HomeLink® V series. HomeLink® V devices are capable of learning garage door opener frequencies and codes from the user's original transmitter.

The device is capable of learning in the range between 286MHz and 440MHz excluding forbidden frequency regions

The Federal Communications Commission will be notified, in writing of any changes in the software/programming of this device that could affect its RF characteristics. Please do not hesitate to contact me with any questions you may have regarding this report. As always, we look forward to your timely response.

Sincerely,

Brian Miller
