Re: FCC ID: 02E-ILR-IPOPT3 Class II Permissive Change Application
Original grant issued November 13, 2003

The purpose of this Class 2 Permissive Change is to test AC line conducted emissions per the latest FCC rules (down to 150 kHz) in order to remove grant note 05 "The manufacture and importation of this device must cease on July 10, 2005, pursuant to 15.37(j) or 18.123 transition provisions adopted under FCC 02-157 (ET Docket 98-80)". The EUT has not changed since its original certification.
