SECTION IV PARTS LIST

1. General

This Parts List is a list of assemblies and parts for the above equipment manufactured by the Bendix/King General Aviation Avionics Division.

Periodically the Parts List is revised to cover additions, deletions, or changes to the equipment.

2. Parts List

The Parts List consists of a breakdown of the unit into assemblies and detailed parts.

A. REFERENCE DESIGNATION Column and FIGURE/ITEM Column

Listed in these columns are all reference designations, figure and item numbers assigned to the associated part numbers.

B. DESCRIPTION Column

In this column is listed the noun name for each assembly, subassembly, sub-subassembly and detail part. If applicable, a description, and serial number or modification level effectivity are also listed.

C. UNITS PER ASSY Column

This column contains the number of parts required for each assembly or subassembly. The letters "AR" denote that the selection of a part or parts should be made as required. "REF" is used if the item is listed for reference purposes.

D. USED ON Column

Part variations within different models of the same equipment are indicated in the USED ON column. In cases where this column has been left blank, the part listed will apply to all models of equipment covered by this publication.
