Airspan has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

In addition the module is not for general sale to 3rd parties and is designed for integration into other Airspan products. Integration and User manuals are only available to 3rd parties under NDA as per attached example.

Sincerely

C F J Blackham
Director
