Dear Sir / Madam

Re. Confidentiality required for FCC ID: O2J-STPCS

Airspan Networks Inc., on behalf of itself and its subsidiary Airspan Communications Ltd., requires that all schematics be held as confidential items per FCC Rule Section 0.459. This requirement is based upon the fact that there is proprietary operational and configuration information contained in the specified items. Release of these items to the general public, and thus to our competition, would be detrimental to our competitive edge.

To confirm that the Federal Communications Commission will comply with the requirement for confidentiality as set forth above, will you please sign and return the attached copy of this letter.

Yours sincerely
