Contents of the box

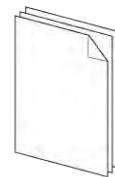

Access Point
(AP7465CE)

1 Power Cable

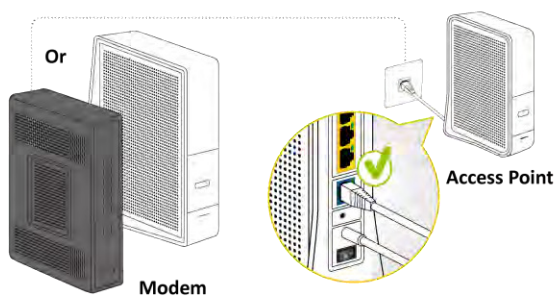

1 Ethernet Cable

The Startup Guide
Warranty Condition
And the CE Certificate

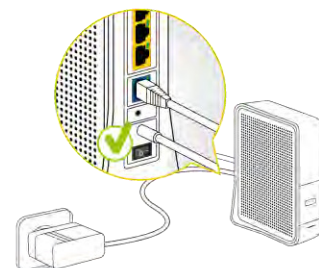

Step 1

Place the Access Point where you want Wi-Fi. The modem and the Access Point must be connected via an Ethernet cable.

Step 2

Connect the power cord and make sure that the access point is turned on.

Step 3

Wait for the Access Point to copy your Wi-Fi settings.
